FARAWAY PUBLIC LIMITED COMPANY

Gibraltar Registered No. 57887

DIRECTORS' REPORT

The directors submit their report and the audited financial statements for the year ended 31 March 2009.

Corporate Profile

The Company was incorporated on 23 April 1996 in Gibraltar. Since 3 May 2005, the Company's shares have been listed for public trading in the United States over-the-counter (OTC: FWYPF) market. No public share trades on the market have taken place to date.

Activities

The Company owns 100% of 10,350 acres of Government of Canada long-term renewable leases near Freuchen Bay, Melville Peninsula, Nunavut, Canada, and is working on arranging for their future development.

Results and Review of Business

The results for the year are shown in the Profit and Loss Account on page 8.

Borealis Exploration Limited ("Borealis"), the ultimate parent company, transferred certain mineral rights in the form of mining claims to the Company pursuant to the terms of a Mining Rights Transfer Agreement. In exchange for acquiring these rights, the Company issued 5,200,000 shares valued at £52,000 GBP.

The Company owns 100% of 10,350 acres of Government of Canada long-term renewable leases near Freuchen Bay, Melville Peninsula, Nunavut, Canada. These leases cover a series of geophysical /geochemical anomalies that our consultants tell us sit astride an intracratonic rift. These leases run for 21 years from 27 December 2001, and are expected to be renewed on the renewal dates, and will require annual payments of US\$9,490 at current exchange rates. The Company intends to retain its interest in the mineral properties for future development.

The Company, if it can secure the necessary funding, aims to complete additional exploration activity in the coming year.

These financial statements have been prepared in accordance with Gibraltar Generally Accepted Accounting Principles (GAAP) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. As at 31 March 2009, the Company had a net asset deficit of US\$292,061 (2008 - net asset deficit US\$22,064) and to date has relied on the support of Borealis, which is also in the development stage. The Company's only assets are the investment in the mining property, which is illiquid, although, because it is now a long-term renewable Government of Canada lease, probably saleable even given the crash in mineral prices. The state of the mineral industry in Canada does raise substantial doubt about the ability of the Company to continue as a going concern. The continued operation of the Company is dependent on its ability to receive continued financial support from shareholders, complete sufficient equity financing or generate profitable operations in the future. However, there can be no assurance that the Company's efforts to generate profitable operations will be successful. The financial statements do not contain any adjustments that might be necessary if the Company is unable to continue as a going concern.

Business Review

Freuchen Bay Project

The Company owns 100% interest in six Government of Canada 21-year renewable mineral leases located near Freuchen Bay, Nunavut, Canada. These leases require annual lease payments of US\$9,490 per year at current exchange rates. All leases are renewable, and are expected to be renewed upon expiry.

In subsequent years, the Company anticipates that significant expenditures will be incurred on development as work progresses on putting its mineral resources into production if we can establish a sufficient resource to justify the necessary costs. Finance in this case will be provided by the issuance of further shares, or by conducting a joint venture with other companies or by the sale of rights to the products from production. Various proposals for development and/or sale of the mineral properties continue under discussion. In the meantime, all of the Company's expenses are paid by Borealis Exploration Limited and the proceeds from all share deposits are advanced to Borealis in exchange for an accounts receivable and all bills being paid by the ultimate parent company.

Dividends

There were no dividends declared during the year.
